Inner Lights

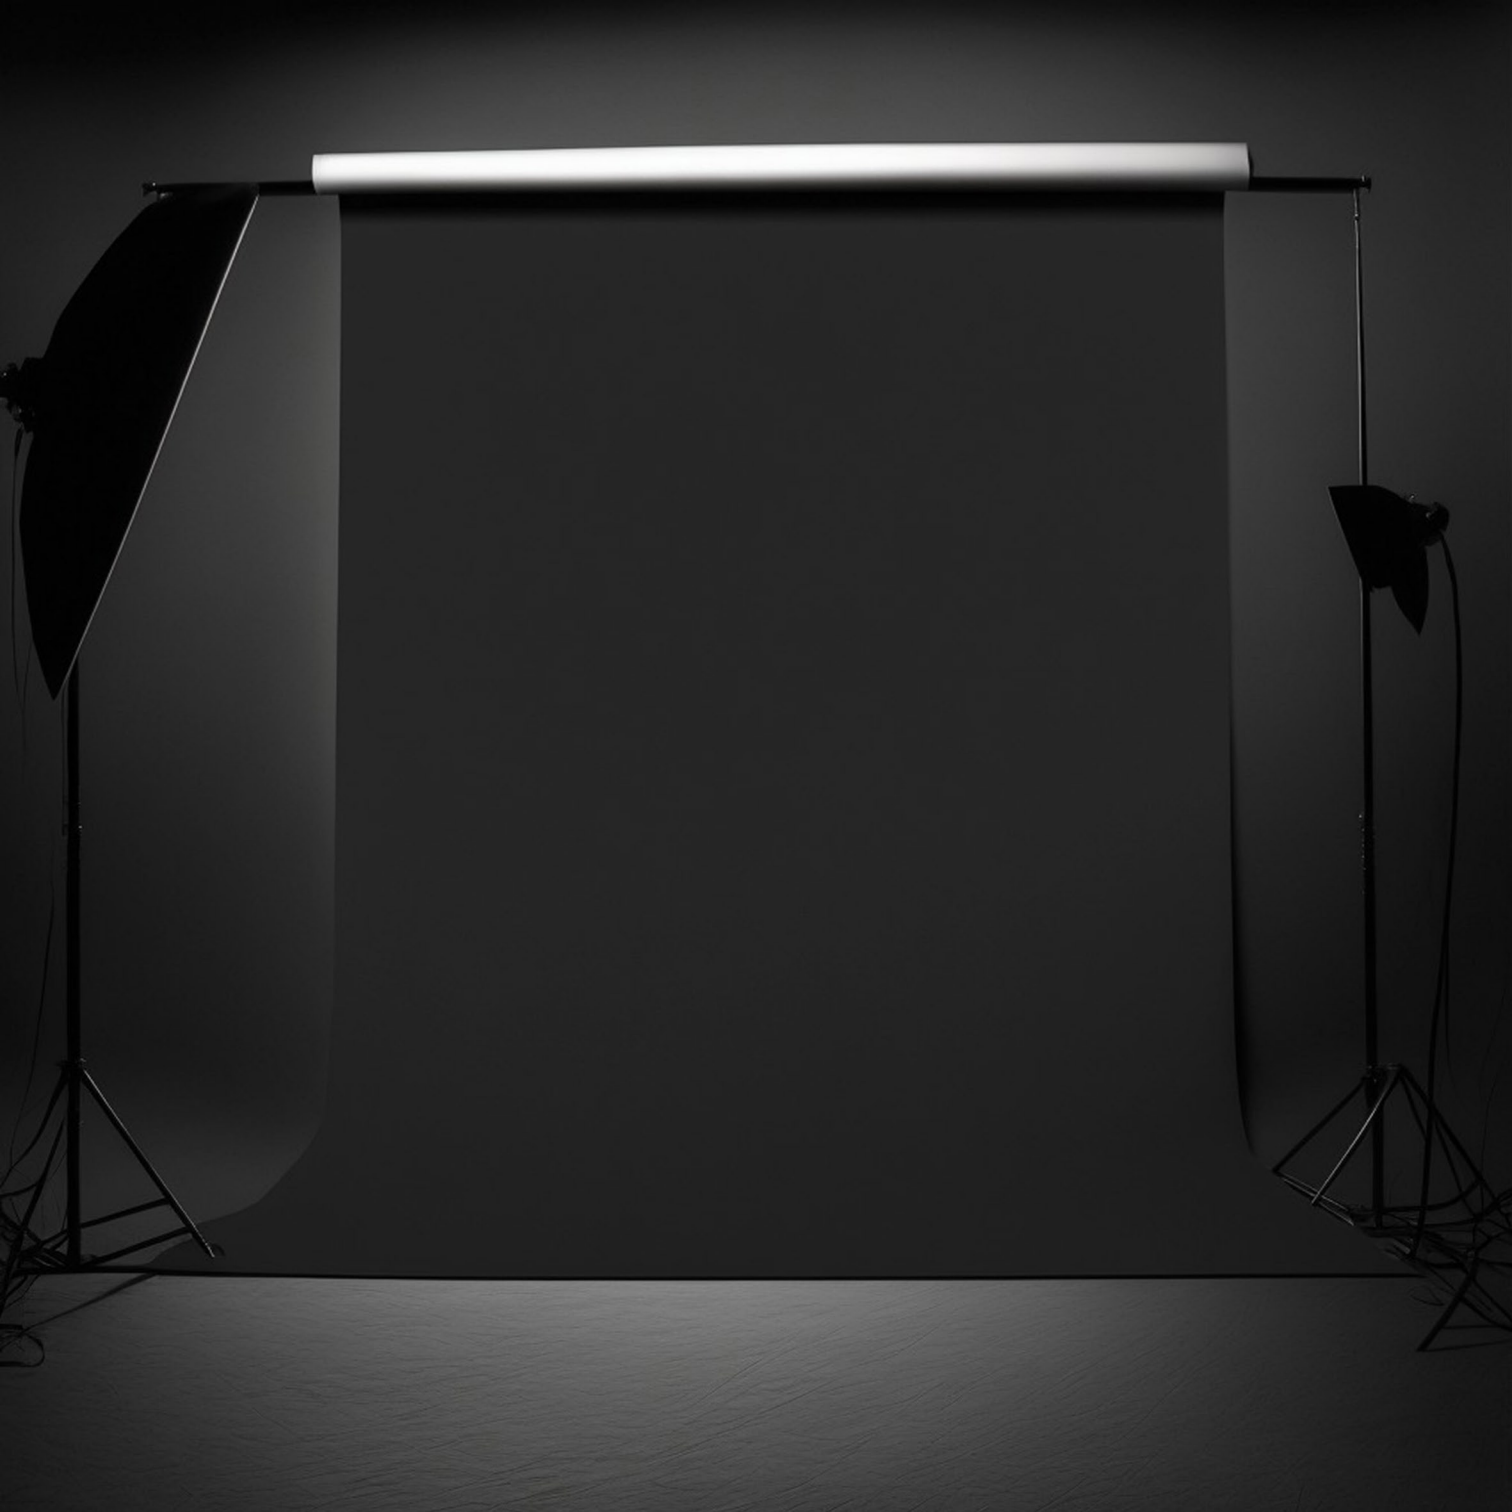

SEVEN YEARS OF INTERMODA

Intermodo is a photography studio founded by Junio M. Durante and Alessandra Riva in 2016.

Twice awarded by the *European Association of Internal Communications* (FEIEA), the studio constantly pushes the boundaries of visual communication, celebrating beauty and the human spirit.

Bringing the style of fashion and cinema to photo shoots, tell the most elegant and human side of everyone, creating possibilities for the imagination, exploring every aspect of personal representation, from fashion to art, through photography, illustration and the written word, continuing to tell fairy tales.

The logo for Intermodo is written in a fluid, cursive script. The letters are connected and have a soft, elegant feel. The 'I' and 'M' are particularly prominent, with the 'I' having a long vertical stroke and the 'M' having a rounded, open top. The overall style is reminiscent of a handwritten signature or a classic calligraphic font.

I chose the simplest love, the one imagined.
Irrepressible need to see it in fairy tales,
in that clear logic that makes them their essence.
They are the creatures of fortune, they know how to simply be.
Their wildest nature demands a price,
beauties that not everyone is allowed to look at,
if you want you pay with the respect.
Yet, never happened, they always are.
